This factory written Detroit Iron shop manual is perfect for**

***the restorer or anyone working on one of these vehicles. Sportman 400 (2001-2005), Sportsman 450 (2006-2007), Sportsman 450 Browning Edition (2006), Sportsman 500 (1996-2010), Sportsman 500 RSE (2000-2002), Sportsman 500 DUSE (2001-2002), Sportsman 500 HO (2001-2006, 2008-2010), Sportsman 500 X2 (2006-2010), Sp Hatchback. Does not cover 500 Abarth or features specific to Convertible. Petrol: 1.1 litre (1108cc) & 1.2 litre (1242cc). Does not cover 0.9 litre Twinair or 1.4 litre petrol engines. Diesel: 1.3 litre (1248cc) Complete coverage of your Honda CB500F/X & CBR500R (13-15) The BMW 5 Series (E34) Service Manual: 1989-1995 is a comprehensive, single source of service information and specifications specifically for BMW 5 Series from 1989 to 1995. The aim throughout this manual has been simplicity, clarity and completeness, with practical explanations, step-by-step procedures and accurate specifications. Whether you're a professional or a do-it-yourself BMW owner, this manual will help you understand, care for and repair your E34 5 Series. 260 pages and more than 290 illustrations and charts, size 8.25 x 10.75 inches. This publication is a reproduction of the Triumph factory workshop manual part number 99-0843/0948/0950. The original workshop manual part number 99-0843 was subsequently updated and merged with workshop manual 99-0948. This merged 'double' manual also included a supplement, part number 99-0950 which extended the coverage up to the 1974 models. The supplement was appended to the 'double' manual such that 'Section A - Lubrication System' is followed by a 'Section AA - Lubrication System' supplement and 'Section B - Engine' is followed by a 'Section BB - Engine' supplement, etc., etc. This combination of 99-0843/0948/0950 was published as a single workshop manual applicable to the entire range of 350cc and 500cc unit construction twins from 1963 through 1974. This reprint is a faithful reproduction of that 'combination' manual. There were a number of 'running changes' made throughout the 11-year production run of these models and the way the factory identifies the point where those changes took place is by referencing engine numbers within each individual section of this manual. To assist in identifying the appropriate information applicable to those changes, the supplements were appended to the end of each appropriate section. Consequently, it is important to note, with regard to any maintenance and repair instructions and also the specifications in the 'General Data' (GD) section, that wherever engine numbers are***

***stated, the data will be specific to that particular series. Therefore, the reader is encouraged to read the entire section plus the supplemental section prior to commencing any work, paying close attention to any engine number notations. Owners of the 350cc and 500cc machines are subjected to considerable confusion surrounding the appropriate selection of the multitude of originals and reprints of the various 350cc and 500cc manuals that have recently flooded the online marketplace. Based on our research, at least six manuals were issued for different series of engine numbers throughout the 11-year production run. However, the 99-0843/0948/0950 'combination' manual is the most comprehensive manual for the entire line of 350cc and 500cc unit construction twins produced from 1963 to 1974. It covers all engine numbers from H29733 through H67331 plus the later 1969 through 1974 alpha numeric series engine numbers, unfortunately, it is somewhat scarce and difficult to find. In addition, many of the changes made towards the end of the production run necessitate the use of the supplement and we are pleased to offer this reprint of the 'combination' manual as a service to all Triumph 350cc and 500cc unit construction owners. The 1963 to 1974 models covered are: Tiger 100: T100SS Tiger (1963-1965), T100 Tiger (1966), T100S Tiger (1967-1970), T100T & T100R Daytona (1966-1974), T100C Trophy (1966-1972) Speed Twin: 5TA (1963-1966) Tiger 90: T90 (1963-1969) Twenty One: 3TA (1963-1966) With a Haynes manual, you can do-it-yourself...from simple maintenance to basic repairs. Haynes writes every book based on a complete teardown of the vehicle, where we learn the best ways to do a job and that makes it quicker, easier and cheaper for you.
