If you ally obsession such a referred **The Man In Rockefeller Suit Astonishing Rise And Spectacular Fall Of A Serial Impostor Mark Seal** book that will find the money for you worth, acquire the completely best seller from us currently from several preferred authors. If you want to droll books, lots of novels, tale, jokes, and more fictions collections are with launched, from best seller to one of the most current released.

You may not be perplexed to enjoy all book collections *The Man In Rockefeller Suit Astonishing Rise And Spectacular Fall Of A Serial Impostor Mark Seal* that we will categorically offer. It is not in this area the costs. Its very nearly what you dependence currently. This *The Man In Rockefeller Suit Astonishing Rise And Spectacular Fall Of A Serial Impostor Mark Seal*, as one of the most functioning sellers here will agreed be accompanied by the best options to review.

Thank you very much for reading **The Man In Rockefeller Suit Astonishing Rise And Spectacular Fall Of A Serial Impostor Mark Seal**. Maybe you have knowledge that, people have search hundreds times for their favorite books like this *The Man In Rockefeller Suit Astonishing Rise And Spectacular Fall Of A Serial Impostor Mark Seal*, but end up in malicious downloads. Rather than reading a good book with a cup of coffee in the afternoon, instead they juggled with some harmful bugs inside their desktop computer.

The Man In Rockefeller Suit Astonishing Rise And Spectacular Fall Of A Serial Impostor Mark Seal is available in our book collection an online access to it is set as public so you can get it instantly. Our books collection spans in multiple locations, allowing you to get the most less latency time to download any of our books like this one. Merely said, the *The Man In Rockefeller Suit Astonishing Rise And Spectacular Fall Of A Serial Impostor Mark Seal* is universally compatible with any devices to read

Eventually, you will very discover a further experience and achievement by spending more cash. nevertheless when? reach you assume that you require to get those all needs taking into account having significantly cash? Why dont you try to get something basic in the beginning? Thats something that will lead you to understand even more going on for the globe, experience, some places, when history,

amusement, and a lot more?

It is your no question own epoch to fake reviewing habit. in the midst of guides you could enjoy now is **The Man In Rockefeller Suit Astonishing Rise And Spectacular Fall Of A Serial Impostor Mark Seal** below.

Right here, we have countless books **The Man In Rockefeller Suit Astonishing Rise And Spectacular Fall Of A Serial Impostor Mark Seal** and collections to check out. We additionally manage to pay for variant types and in addition to type of the books to browse. The suitable book, fiction, history, novel, scientific research, as capably as various further sorts of books are readily open here.

As this *The Man In Rockefeller Suit Astonishing Rise And Spectacular Fall Of A Serial Impostor Mark Seal*, it ends happening monster one of the favored book *The Man In Rockefeller Suit Astonishing Rise And Spectacular Fall Of A Serial Impostor Mark Seal* collections that we have. This is why you remain in the best website to see the amazing ebook to have.

John Jacob Astor - Cornelius Vanderbilt - Andrew Carnegie - John D. Rockefeller - Henry Ford - Joseph P. Kennedy - Even today, long after their deaths, the names of these six men continue to be associated with wealth and power. When they were alive, they dominated their worlds as few men had done before, and few have done since. Now in paperback, this book contains the life stories of six of the richest men who ever lived in America. Their lives offer us windows into ways of life that most of us can only imagine - an opportunity to glimpse times when laws, attitudes, prejudices, and opportunities were very different from today. Their achievements - financial, political, and social - continue to affect us to this day, for good or ill. Additionally, their mistakes still offer important lessons about the acquisition, use, and abuse of wealth and power. And had they not lived, the history of America - and the world - might have been very different indeed. CONTENTS Some Old Friends The Difficult Art of Getting The Standard Oil Company Some Experiences in the Oil Business Other Business Experiences and Business Principles The Difficult Art of Giving The Benevolent Trust -- The Value of the Co?perative Principle in Giving 'If you really want to hear about it, the first thing you'll probably want to know is where I was born and what my lousy childhood was like, and how my parents were occupied and all before they had me, and all that David Copperfield kind of crap, but I don't feel like going into it, if you want to know the truth.' The first of J. D. Salinger's four books to be published, *The Catcher in the Rye* is one of the most widely read and beloved of all contemporary American novels. 'The handbook of the adolescent heart' *The New Yorker* Would you rather earn interest than pay it, and eliminate the necessity of paying fees to banks and jumping through hoops to get loans? Are you frustrated with being over-taxed and/or being dependent on a volatile stock market? Do you suspect that the ultra-wealthy play by a different set of rules than you do, and that their secrets have been kept just out of your reach? What would it mean to you and your family if you knew these rules to play by them too? The youngest son of John D. Rockefeller, Jr., and Abby Aldrich Rockefeller narrates the story of his life, from his youth and Harvard education, through his military service during World War II, to his career in business and finance, and chronicles his varied roles as financier, philanthropist, and unofficial international envoy. Reprint. 75,000 first printing. Family, friendship, and the spirit of giving are at the heart of this inspiring picture book. Opening in Depression-era New York, *The Carpenter's Gift* tells the story of eight-year-old Henry and his out-of-work father selling Christmas trees in Manhattan. They give

one of their leftover trees to construction workers building Rockefeller Center. That tree becomes the first Rockefeller Center Christmas Tree, the finest Henry has seen when adorned with homemade decorations. Henry wishes on the tree for a nice, warm house to replace his family's drafty, one-room shack. Through the kindness of new friends and old neighbors, Henry's wish is granted, and he plants a pinecone to commemorate the event. As an old man, Henry repays the gift by donating to Rockefeller Center the enormous tree that has grown from that pinecone. After bringing joy to thousands as a beautiful Christmas tree, its wood will be used to build a home for a family in need. Written by children's nonfiction author David Rubel, in collaboration with Habitat for Humanity, *The Carpenter's Gift* features charming, full-color illustrations by Jim LaMarche. Making use of untapped resources, Seim looks at the impact of the Rockefellers, viewed through the lens of their philanthropic support of social science from 1890-1940. Focusing specifically on the Rockefeller Foundation and the Laura Spelman Rockefeller Memorial, Seim connects the family's business success with its philanthropic enterprises. The Classic Autobiography "Random Reminiscences Of Men And Events" written by the oil titan John D. Rockefeller himself - John Davison Rockefeller Sr. (July 8, 1839 - May 23, 1937) was an American tycoon in the oil industry business and a philanthropist. He is widely regarded the wealthiest American of all time. His autobiography "Random Reminiscences Of Men And Events" gives interesting insights into the life of the richest person in modern history. - Probably in the life of every one there comes a time when he is inclined to go over again the events, great and small, which have made up the incidents of his work and pleasure, and I am tempted to become a garrulous old man, and tell some stories of men and things which have happened in an active life. In some measure I have been associated with the most interesting people our country has produced, especially in business-men who have helped largely to build up the commerce of the United States, and who have made known its products all over the world. These incidents which come to my mind to speak of seemed vitally important to me when they happened, and they still stand out distinctly in my memory. A probing and cinematic exploration of an audacious impostor, Christian Gerhartsreiter, and his "talented Mr. Ripley" story as Clark Rockefeller. In the summer of 1998, Walter Kirn - then a young novelist struggling with fatherhood and a dissolving marriage - set out on a peculiar, fateful errand: to personally deliver a crippled hunting dog from an animal shelter in Montana to the New York apartment of one Clark Rockefeller, a secretive young banker and art collector. Thus began a fifteen-year relationship that drew Kirn deep into the fun-house world of an outlandish, eccentric son of privilege who, one day, would be shockingly unmasked as a brazen serial impostor and brutal double-murderer. This is a one-of-a-kind story of an innocent man duped by a real-life Mr Ripley, taking us on a bizarre and haunting journey from the private club rooms of Manhattan to the courtrooms and prisons of Los Angeles. The incredible tale of how ambitious oil rivals Marcus Samuel, Jr., and Henri Deterding joined forces to topple the Standard Oil empire Marcus Samuel, Jr., is an unorthodox Jewish merchant trader. Henri Deterding is a take-no-prisoners oilman. In 1889, John D. Rockefeller is at the peak of his power. Having annihilated all competition and possessing near-total domination of the market, even the U.S. government is wary of challenging the great "anaconda" of Standard Oil. The Standard never loses—that is until Samuel and Deterding team up to form Royal Dutch Shell. A riveting account of ambition, oil, and greed, *Breaking Rockefeller* traces Samuel's rise from outsider to the heights of the British aristocracy, Deterding's conquest of America, and the collapse of Rockefeller's monopoly. The beginning of the twentieth century is a time when vast fortunes were made and lost. Taking readers through the rough and tumble of East London's streets, the twilight turmoil of czarist Russia, to the halls of the British Parliament, and right down Broadway in New York City, Peter Doran offers a richly detailed, fresh perspective on how Samuel and Deterding beat the world's richest man at his own game. On the 29th of June, 2008, Bernie Madoff was sentenced to 150 years in prison. His crime was running the biggest-ever fraudulent scheme in US history, and probably in the history of the world. The prosecutors estimated that Madoff had committed a fraud worth \$64.8 billion. Madoff was a well-respected financier, and this is why investors believed him when he promised consistent profits in return of their savings. Furthermore, he continued to fool his investors, more than 4,800 clients, for a period of over a decade. So, who was Bernie Madoff? What is a Ponzi scheme? How did Bernie manage to run this fraudulent scheme for such a long time? How was he caught? Find out all about this and much more right here in this book. Describes the author's fifteen-year relationship with

eccentric New Yorker Clark Rockefeller, his discovery that Rockefeller was a serial impostor and murderer, and how his old friend's murder trial made him face hard truths about himself. This is the history of Rivera's ill-fated mural at the Rockefeller Center in New York and the minute restoration of the sketches housed in the collections of the Museo Anahuacalli, complemented by a vast number of letters, photos and other documents, many of which are published here for the first time. In January 2010 a law-abiding, church-going father of two from Melbourne's leafy eastern suburbs didn't come home after a business trip and his burnt remains were found in a northern suburb - the wrong side of town - a week later. A police investigation uncovered the shocking truth: Herman Rockefeller met with an alcoholic single mum and her older boyfriend for sex and the liaison had gone horribly wrong. Was the respectable, successful businessman (worth \$400 million) leading a double life as a swinger? Why didn't he just pay for whatever sex took his fancy instead of taking the sordid option? How did the two very different worlds of killers and victim connect in the first place? Rockefeller has taken some answers to the grave, but Hilary Bonney takes us right inside the world of the killers and behind the scenes of the investigation to bring us the story of the multimillionaire who fell from grace. "God gave me my money. I believe the power to make money is a gift from God . to be developed and used to the best of our ability for the good of mankind. Having been endowed with the gift I possess, I believe it is my duty to make money and still more money and to use the money I make for the good of my fellow man according to the dictates of my conscience." What are the underlying handful of fundamentals that haven't changed for over a hundred years? From Harnish's famous "Mastering a One Page Strategic Plan" process that has been a best-selling article on the web to his concise outline of eight practical actions you can take to strengthen your culture, this book is a compilation of best practices adapted from some of the best-run firms on the planet. Included is an instructive chapter co-authored by Rich Russakoff, revealing winning tactics to get banks to finance your business. Lastly, there are case studies demonstrating the validity of Harnish's practical approaches. A behind-the-scenes look at one of New York's most colorful and influential governors. Updated for today's readers, Dale Carnegie's timeless bestseller *How to Win Friends and Influence People* is a classic that has improved and transformed the professional and personal and lives of millions. One of the best-known motivational guides in history, Dale Carnegie's groundbreaking book has sold tens of millions of copies, been translated into almost every known language, and has helped countless people succeed. Originally published during the depths of the Great Depression—and equally valuable during booming economies or hard times—Carnegie's rock-solid, time-tested advice has carried countless people up the ladder of success in their professional and personal lives. *How to Win Friends and Influence People* teaches you: -How to communicate effectively -How to make people like you -How to increase your ability to get things done -How to get others to see your side -How to become a more effective leader -How to successfully navigate almost any social situation -And so much more! Achieve your maximum potential with this updated version of a classic—a must-read for the 21st century. "Mr. Fosdick has written a biography in its formal meaning — fully documented, chronologically precise — and not simply a personal tribute to a friend of more than forty years' standing. The book, in consequence, is both biography and history, satisfying all the rigorous canons of personal and social analysis. It is to be read as part of the history of our time and as the record of a man of as much consequence to us as have been those other leaders and creators among his contemporaries who have affected public conduct. What we have here, then, is the narrative of a rich man who overcame the almost impossible handicaps of great wealth, limited religious upbringing, and a narrow and protective family circle. He might have become defensive and suspicious, or a recluse cultivating private and expensive hobbies, or a popular leader and therefore a demagogue (such patterns of the behavior of men of inherited fortunes are familiar throughout history), but instead he was able to grow and to assume great, national obligations. What might have been a puzzle slowly disappears under Mr. Fosdick's skillful scholarship and his deep regard for his friend. The young Rockefeller (he is called throughout the book 'JDR Jr.'), as early as 1910, when he was 36, severed his direct connections with business: did he do so because of a real or unconscious rejection of his father? Quite the contrary; father and son early forged strong bonds of mutual affection and respect, but while there never was hostility on the part of the son, neither was there subservience. JDR Jr. continued to support the philanthropies founded by the older man, the Rockefeller Institute for Medical Research, the General Education Board, and the Rockefeller Foundation, and to

expand them; did he do this because he, like other men in public life — like Theodore Roosevelt, Woodrow Wilson, Louis D. Brandeis — was inevitably swept up in the ‘reform movement’ of the day? That was only a part, and possibly a minor one, of his development. For as his tastes became surer and his vocation clearer, he ranged wider and wider until his interests were as large as those of his country and his world. As one goes over the catalogue of his benefactions and interests — none ever representing a perfunctory concern, most requiring long years of careful planning with a devotion to exact detail that only the truly outstanding seem to possess — one grasps the sweep and boldness of JDR Jr.’s mind. Williamsburg; the Cloisters; Rockefeller Center; the Museum of Modern Art; the restoration of the Athenian Agora; Rheims, Versailles, Fontainebleau; Negro education; the four International Houses; Jackson Hole and the Jersey Palisades; the Library of the League of Nations at Geneva, and the site of the U.N. at New York; the interdenominational movement; the long battle to achieve industrial understanding in two decades marked by bitter strife between management and labor: this is only a partial list. Mr. Fosdick seeks the key to the Rockefellers in some observations made by Frederick T. Gates, that restless and fascinating man who had such a great influence on the lives of both father and son. In 1905, Gates wrote to the father: ‘Two courses are open to you. One is that you and your children while living should make final disposition of this great fortune in the form of permanent corporate philanthropies for the good of mankind... or at the close of a few lives now in being it must simply pass into the unknown, like some other great fortunes, with unmeasured and perhaps sinister possibilities.’ In 1929, Gates was satisfied, for he put down in a private document these remarks concerning JDR Jr.: ‘I have known no man who entered life more absolutely dominated by his sense of duty, more diligent in the quest of the right path, more eager to follow it at any sacrifice.’” — Louis M. Hacker, *The New York Times* “The central theme of Raymond B. Fosdick’s book is its subject’s career as a philanthropist... This is not an impartial book and was not so intended. Mr. Fosdick is an admiring friend and associate of the man of whom he writes. But if the book is understandably friendly to John D. Rockefeller, Jr., it is also an honest book.” — John D. Hicks, *The Saturday Review National Book Critics Circle Award Finalist* From the acclaimed, award-winning author of *Alexander Hamilton*: here is the essential, endlessly engrossing biography of John D. Rockefeller, Sr.—the Jekyll-and-Hyde of American capitalism. In the course of his nearly 98 years, Rockefeller was known as both a rapacious robber baron, whose Standard Oil Company rode roughshod over an industry, and a philanthropist who donated money lavishly to universities and medical centers. He was the terror of his competitors, the bogeyman of reformers, the delight of caricaturists—and an utter enigma. Drawing on unprecedented access to Rockefeller’s private papers, Chernow reconstructs his subjects’ troubled origins (his father was a swindler and a bigamist) and his single-minded pursuit of wealth. But he also uncovers the profound religiosity that drove him “to give all I could”; his devotion to his father; and the wry sense of humor that made him the country’s most colorful codger. *Titan* is a magnificent biography—balanced, revelatory, elegantly written. A real-life Talented Mr. Ripley, the unbelievable thirty-year run of a shape-shifting con man. The story of Clark Rockefeller is a stranger-than-fiction twist on the classic American success story of the self-made man—because Clark Rockefeller was totally made up. The career con man who convincingly passed himself off as Rockefeller was born in a small village in Germany. At seventeen, obsessed with getting to America, he flew into the country on dubious student visa documents and his journey of deception began. Over the next thirty years, boldly assuming a series of false identities, he moved up the social ladder through exclusive enclaves on both coasts—culminating in a stunning twelve-year marriage to a rising star businesswoman with a Harvard MBA who believed she’d wed a Rockefeller. The imposter charmed his way into exclusive clubs and financial institutions—working on Wall Street, showing off an extraordinary art collection—until his marriage ended and he was arrested for kidnapping his daughter, which exposed his past of astounding deceptions as well as a connection to the bizarre disappearance of a California couple in the mid-1980s. The story of *The Man in the Rockefeller Suit* is a probing and cinematic exploration of an audacious imposter—and a man determined to live the American dream by any means necessary. Chronicles the life of a man revered for his philanthropic activity and despised for his business tactics. Smart leaders know that they would greatly increase productivity and innovation if only they could get everyone fully engaged. So do professors, facilitators and all changemakers. The challenge is how. *Liberating Structures* are novel, practical and no-nonsense methods to help you accomplish this goal with groups of any size.

Prepare to be surprised by how simple and easy they are for anyone to use. This book shows you how with detailed descriptions for putting them into practice plus tips on how to get started and traps to avoid. It takes the design and facilitation methods experts use and puts them within reach of anyone in any organization or initiative, from the frontline to the C-suite. Part One: *The Hidden Structure of Engagement* will ground you with the conceptual framework and vocabulary of *Liberating Structures*. It contrasts *Liberating Structures* with conventional methods and shows the benefits of using them to transform the way people collaborate, learn, and discover solutions together. Part Two: *Getting Started and Beyond* offers guidelines for experimenting in a wide range of applications from small group interactions to system-wide initiatives: meetings, projects, problem solving, change initiatives, product launches, strategy development, etc. Part Three: *Stories from the Field* illustrates the endless possibilities *Liberating Structures* offer with stories from users around the world, in all types of organizations -- from healthcare to academic to military to global business enterprises, from judicial and legislative environments to R&D. Part Four: *The Field Guide for Including, Engaging, and Unleashing Everyone* describes how to use each of the 33 *Liberating Structures* with step-by-step explanations of what to do and what to expect. Discover today what *Liberating Structures* can do for you, without expensive investments, complicated training, or difficult restructuring. Liberate everyone's contributions -- all it takes is the determination to experiment. John D. Rockefeller is held to be one of the wealthiest men who ever lived; he is also one of the most controversial figures in American history. Born of the unlikely union between a strict Baptist matriarch and her husband, a bigamist, alleged rapist, and snake-oil salesman, Rockefeller's early childhood was spent learning how to shoulder an adult's responsibility for his family and turn a deaf ear to the gossip that followed wherever his father went. This book contains highlights from the extraordinarily long life of a man many believed to be little better than a criminal, preying on small business owners to establish the supremacy of the Standard Oil Trust. John D. Rockefeller crushed his competitors and sparked massive public outrage against his businesses. Yet he also saved thousands of lives and helped establish respect for evidence-based medicine in the United States. From his teen years as a bookkeeper in a small commodities trading firm, to his imperial rule over the oil industry, to his early retirement and the decades he spent establishing philanthropic trusts in the fields of education and medicine, you will learn that there is no simple way to pass judgment on John D. Rockefeller's life. In *Rockefeller “Internationalist”*: The Man Who Misrules the World, which was first published in 1952, author Emanuel M. Josephson purports to expose the global conspiracy between the Rockefeller family and the Axis powers. Alleging that the Rockefeller Institute of Pacific Relations controlled the spy ring responsible for the attack on Pearl Harbor, the author goes to great lengths to describe the links between the Rockefellers and companies such as IG Farben, which supported Hitler’s concentration camps, as well as links between the Rockefeller family and Stalin in an effort to establish a global society. An interesting and important historical document. Written by an international panel of distinguished global health experts, this book distills valuable lessons from a wide variety of successful health programs that have been implemented around the world. *Global Health Leadership and Management* gives practical suggestions for enhancing and developing the essential skills of leadership, management, communication, and project planning for health care leaders. The book will assist health leaders to work well within their communities and effectively plan, direct, implement, and evaluate effective programs and activities. *Global Health Leadership and Management* outlines and describes such core competencies as Identifying challenges and developing and managing policy Developing strategies, pathways, and solutions Creating networks and partnerships and planning for change Learning from experience to build a generation of leaders Leading and managing teams by recognizing and celebrating success In this hugely appealing book, a finalist for the Pulitzer Prize, acclaimed author and journalist Daniel Okrent weaves together themes of money, politics, art, architecture, business, and society to tell the story of the majestic suite of buildings that came to dominate the heart of midtown Manhattan and with it, for a time, the heart of the world. At the center of Okrent's riveting story are four remarkable individuals: tycoon John D. Rockefeller, his ambitious son Nelson Rockefeller, real estate genius John R. Todd, and visionary skyscraper architect Raymond Hood. In the tradition of David McCullough's *The Great Bridge*, Ron Chernow's *Titan*, and Robert Caro's *The Power Broker*, *Great Fortune* is a stunning tribute to an American landmark that captures the heart and spirit of New York at its apotheosis. "Makes a reader

feel like a time traveler plopped down among men who were by turns vicious and visionary."—The Christian Science Monitor

The modern American economy was the creation of four men: Andrew Carnegie, John D. Rockefeller, Jay Gould, and J. P. Morgan. They were the giants of the Gilded Age, a moment of riotous growth that established America as the richest, most inventive, and most productive country on the planet. Acclaimed author Charles R. Morris vividly brings the men and their times to life. The ruthlessly competitive Carnegie, the imperial Rockefeller, and the provocateur Gould were obsessed with progress, experiment, and speed. They were balanced by Morgan, the gentleman businessman, who fought, instead, for a global trust in American business. Through their antagonism and their verve, they built an industrial behemoth—and a country of middle-class consumers. The Tycoons tells the incredible story of how these four determined men wrenched the economy into the modern age, inventing a nation of full economic participation that could not have been imagined only a few decades earlier. We live in a world today that is based on the actions of John D. Rockefeller. Everything we do and how we live are the result of oil and its power. The story of Rockefeller as told in this book provides a deep view of the oil industry and is told from a very human and real perspective. Oswald Theodore Avery is little known outside of the scientific community. Yet, this extraordinary man, here brought vividly to life by a perceptive friend and sophisticated scientific colleague, was a monumental force in the development of medical research in the United States. Even among scientists, Avery is known chiefly as the senior author of a paper published in 1944 that identified DNA as the purveyor of genetic information. Two things make this highly personalized biography a landmark volume. First, its technical chapters clarify the philosophical concepts that lie behind today's understanding of the immunology of bacterial infection. Second, not a single existing textbook has ever described the laborious methods by which the men in Avery's laboratory discovered the genetic import of DNA. From April to August 1961, Michael Rockefeller served as sound recordist and photographer on a multidisciplinary expedition to highland New Guinea. In five months he produced over 4,000 black and white negatives. In this catalogue of over 75 photographs, Bubriski explores Rockefeller's journey into the culture and community of the Dani people. In the early 1900s, William Rockefeller of Standard Oil, one of the world's wealthiest, most powerful businessmen, decided to purchase a vast estate in the Adirondack Mountains of northern New York State. The land he wanted consisted of traditional hunting and fishing grounds vital to settlers who had lived in the mountains for generations. He purchased more than 50,000 acres and allowed no trespassing on his property. To complete his estate, Rockefeller needed to remove the village of Brandon, which stood in his way. Most of the residents left or were coerced by Rockefeller into leaving. A variety of aggressive, onerous tactics were used to drive the people of Brandon from their homes. A diminutive lumberjack named Oliver Lamora resisted, and for a decade the two men battled in the forest and in the courts of New York State. The confrontation grew into a fight for control of the Adirondacks, and was followed by newspapers from coast to coast. Threats, violence, arson, and murder all played a role in the struggle. It pitted wealthy outsiders against poor mountain natives, and the two main protagonists, Rockefeller and Lamora, were portrayed as a modern-day version of David and Goliath. This is the uplifting, true story of a pioneer woodsman's heroic battle against incredible odds. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE BOSTON GLOBE, BOOKLIST, AND KIRKUS REVIEWS • From acclaimed historian Richard Norton Smith comes the definitive life of an American icon: Nelson Rockefeller—one of the most complex and compelling figures of the twentieth century. Fourteen years in the making, this magisterial biography of the original Rockefeller Republican draws on thousands of newly available documents and over two hundred interviews, including Rockefeller's own unpublished reminiscences. Grandson of oil magnate John D. Rockefeller, Nelson coveted the White House from childhood. "When you think of what I had," he once remarked, "what else was there to aspire to?" Before he was thirty he had helped his father develop Rockefeller Center and his mother establish the Museum of Modern Art. At thirty-two he was Franklin Roosevelt's wartime coordinator for Latin America. As New York's four-term governor he set national standards in education, the environment, and urban policy. The charismatic face of liberal Republicanism, Rockefeller championed civil rights and health insurance for all. Three times he sought the presidency—arguably in the wrong party. At the Republican National Convention in San Francisco in 1964, locked in an epic battle with Barry Goldwater, Rockefeller denounced extremist elements in the GOP, a moment that changed the party forever. But he could not wrest the nomination from

the Arizona conservative, or from Richard Nixon four years later. In the end, he had to settle for two dispiriting years as vice president under Gerald Ford. In *On His Own Terms*, Richard Norton Smith re-creates Rockefeller's improbable rise to the governor's mansion, his politically disastrous divorce and remarriage, and his often surprising relationships with presidents and political leaders from FDR to Henry Kissinger. A frustrated architect turned master builder, an avid collector of art and an unabashed ladies' man, "Rocky" promoted fallout shelters and affordable housing with equal enthusiasm. From the deadly 1971 prison uprising at Attica and unceasing battles with New York City mayor John Lindsay to his son's unsolved disappearance (and the grisly theories it spawned), the punitive drug laws that bear his name, and the much-gossiped-about circumstances of his death, Nelson Rockefeller's was a life of astonishing color, range, and relevance. *On His Own Terms*, a masterpiece of the biographer's art, vividly captures the soaring optimism, polarizing politics, and inner turmoil of this American Original. Praise for *On His Own Terms* "[An] enthralling biography . . . Richard Norton Smith has written what will probably stand as a definitive Life. . . . *On His Own Terms* succeeds as an absorbing, deeply informative portrait of an important, complicated, semi-heroic figure who, in his approach to the limits of government and to government's relation to the governed, belonged in every sense to another century."—The New Yorker "[A] splendid biography . . . a clear-eyed, exhaustively researched account of a significant and fascinating American life."—The Wall Street Journal "A compelling read . . . What makes the book fascinating for a contemporary professional is not so much any one thing that Rockefeller achieved, but the portrait of the world he inhabited not so very long ago."—The New York Times "[*On His Own Terms*] has perception and scholarly authority and is immensely readable."—The Economist
